This week the children in Reception have been designing their own treasure maps. They added different features like volcanoes, bridges and crocodile infested swamps to their maps to make the journey as treacherous as possible! Great work Reception!

This week, Year 3 have been exploring angles. They explored angles within a shape. They identified angles as a property of shapes and the relationship between the number of angles, the number of sides and the number of vertices on a shape.

Late on Thursday evening, following guidance issued from Cheshire East and Public Health England, we were informed that we were unable to take our children on a school trip out of Cheshire East due to the increasing Covid numbers in our area. The Year 6 children had a trip planned to Go-Ape next Monday, which sadly we had to cancel as that falls in Cheshire West. After much ringing around, we managed to find a cancellation at Astbury Mere for a day of canoeing and raft building on Tuesday! The weather was kind and all the children absolutely loved it.

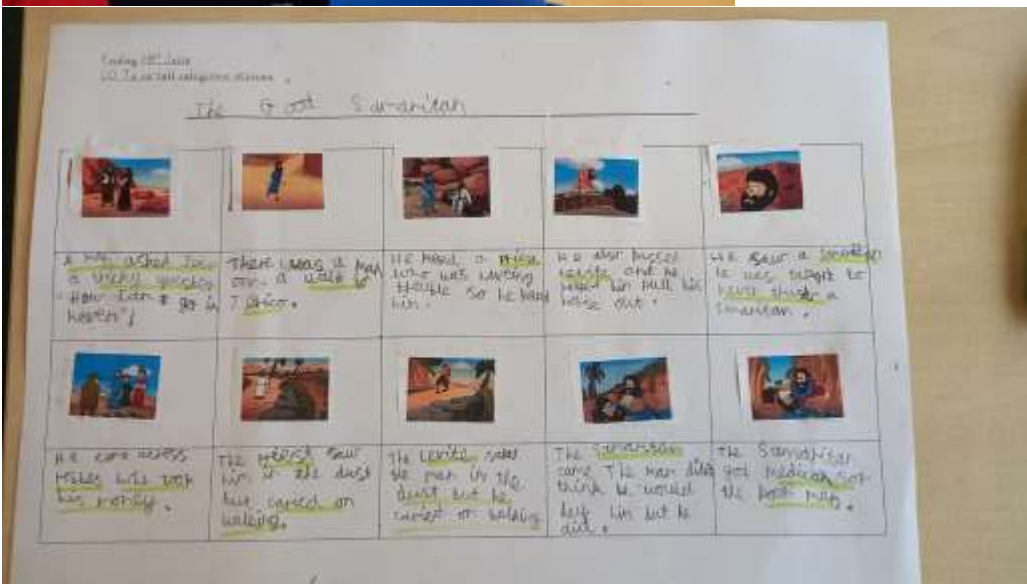

Year 5 were conducting out a Science experiment (gravity). We had to work with our partner and record our predictions, results and conclusions. We even listened to our Newton's laws of motion song to help us learn more.

Class 1 have been carrying out a pattern seeking investigation to see if bigger seeds grow in to taller plants. We'll make our final conclusions after a couple more weeks growing. They have also been enjoying their cricket sessions in the sun with both Multiflex and All Stars and have demonstrated some fantastic batting skills!

Year 2 have been working on the story of the Good Samaritan in RE today.

In PE this week, Class 4 played invasion games focussing on the importance of passing. To keep it interesting, every point the game swapped from handball, to football, to rugby!

EGERTON PRIMARY SCHOOL
HOLIDAY DATES 2021/22

	School Closes	School Re-opens
